	FIGSPCX		12"
	TECHNO		GER
A1	ROD, aka respected long-term Dutch activist Benny Rodrigues, hands in another burning 4 track EP for Figure SPC. As the series approaches the zenith of its 26 chapter A-Z journey, the quality shows no sign of dropping, with ROD's crisp and characterful techno trips inspired by classic minimalist traditions. Over four, bleep infused, tracky and positively charged cuts, ROD opens the doors for us into his latest hardware-driven studio sessions. Each track is a carefully carved snapshot, a different specific moment for the floor, the producers talent for creating elegant moments of tense and playful Techno is clear to hear

	FIGURE / LEN SERIES	ANDRE KRONERT - THE THRONE ROOM (LEN FAKI RMX)	10.30 € 
	FIGURE071		12"
	TECHNO		GER
A1	Up and coming producer, Odd/Even label boss and close Stockholm Ltd affiliate Andre Kronert arrives on Figure with an astounding 3 track EP, completed by a deadly Len Faki Dub. Kronert has risen through the ranks yet stayed true to his reduced, warm and powerful sound strategy. The opening track G.I.A.N.T makes for a wonderfully tense opener, with its expansive dark sound design and deep dub kick arriving around the half-way point. This is countersigned then by two more energetic tracks in the shape of The Throne Room and Fallen Space, both pivoting over a fulcrum of classic synth hooks and carefully honed percussion. Len Faki takes The Throne Room into a different mental zone, with his almost tropical Dub version, ensnaring a freaky pitched motif to accent and build upon Andre's powerful original elements. Classic reduction, and an EP of classic Figure contemporary Techno

	FIGURE / LEN SERIES	CLERIC - THE KEY OF NIGHT	10.80 € 
	FIGURE072		12"
	TECHNO		GER
A1	From the storming energy of opening cut The Key of Night all the way through to the deepertipping Solar Fields its a must-have EP for >those who know<. Young UK based producer Cleric has established himself not only as a bonafide new talent and key player in the International Techno world, but also as a prolific artist on Figure. Now well known for his crisp, deadly club tracks and rich melancholic ambient studies, in this fifth single for the label he explores his hard-hitting yet luxurious sound ever further. Whats immediate about the four tracks on offer here is Clerics extremely powerful, yet masterfully controlled bass frequencies. Coupled with his addictive, smart and dark 90s-reminiscent synth hooks, we are left with an array of stomping, percussive weapons primed for expansive spaces and killer sound systems

We mark the occasion with the double pack compilation "Replicants". Our secret agents for this mission are Sleeparchive, O/H, Perc, Honzo, Gaja, Takaaki Itoh, Ontal and Sturgen. Sleeparchive starts the journey with "Plates" - a stone cold techno vision with an industrial aesthetic of concrete filled textures and tension setting a dark paranoid atmosphere. O/H slow the tempo with "All Flesh" but not the intensity. The track has rhythmic noise and acid elements twisting to the mutated punk vocals and kick drums. Perc heads straight into a black hole with "Hiding From Carl" - thunderous kicks and percussion set the controls for the centre of the dark star as we drive towards the white light and the noise rises. Honzo's alien like "Dissociated Identities" grooves with slow mechanical distorted drums and laser like sequences as metallic guitars and strings soar into the stratosphere. Gaja transports us into a parallel universe with "Noys Lambert" - techno for time travellers. Rugged drum machines and battle weapons propel us into the trajectory of the geometric sequence patterns and sonic waveforms</p>

	PARACHUTE	CW/A - WORDS UNSPOKEN, ACTS UNDONE	22.70 € 
	PAR006LP		2LP
	IDM / TECHNO / INDUSTRIAL		ITA
A1	<p>Words Unspoken, Acts Undone. The passing of time, what has been spoken, now unspoken. All that has been, has been undone. CW/A present their remarkable debut album, Words Unspoken, Acts Undone. Since their inception CW/A have forged a path through the murky world of electronic music, with a number of releases on Vakant, M_REC and their own Parachute Records. Previously accomplished musicians in their own right, Thomas and Francesco joined forces in 2013 to begin a live project that took the act of performance into the club. Shying away from typical setups so prevalent nowadays, CW/A bring to the club a level of live performance which they've now translated into their first full-length. Weighing in at 11 tracks the album demonstrates the duos musical heritage of early Warp style bass but also UK Jungle and Downwards- influenced dub Techno. This isn't an album that looks back with any misty-eyed nostalgia, it respectfully brings its nineties influences straight into 2015, seamlessly weaving from genre to genre with an up-to-date element to the production</p>

	<p>TRESOR</p> <p>DJ DEEP & ROMAN PONCET present ADVENTICE - EXSURGENCE</p> <p>TRESOR281</p> <p>TECHNO</p>	<p>10.90 €</p> <p>12"</p> <p>GER</p>
A1	Following the release of the 'Extraction' and 'Hydraulic Pressure' 12's earlier this year, Adventice - the incendiary collaboration between DJ Deep and Roman Poncet, returns to Tresor. Unfolding in three different versions around a common theme, as per its two predecessors, 'Exsurgence' takes the groove up quite a few notches. The 'Main Mix' opens into hammering chords yet taking a delicate turn into an ethereal refrain. On the flip, the 'Reduced Mix' follows the same composition while playful and cinematic as the use of hihats add a skip to your step and pick up the pace. The 'Percussive Mix' and its rapid drum patterns, exude a fragrance of vocals triggering endless soundscapes. With this new three track single, DJ Deep and Roman Poncet deliver a fierce package, another warning for what is still to come for the duo.

	<p>TRESOR</p> <p>PSYK - WORKS</p> <p>TRESOR282</p> <p>TECHNO</p>	<p>10.90 €</p> <p>12"</p> <p>GER</p>
A1	Edition 282 marks the long awaited debut of Manuel Anós aka Psyk on the expansive and honorable Tresor Records catalog. The Madrid-based producer had previously released a single track 'Jackin' under the alias Maan back in 2012 on DJ Deep's Kern Vol. 01 compilation. Psyk takes the stage with a four-track solo EP 'Works', also including a digital bonus track. On both side's first positions - with 'Definition' and 'Balance' - Psyk delivers electrifying tracks teetering on the boundaries of hypnosis. On the inner-rims, Psyk slows down the pace with 'Stigma' and 'Lowdown', introducing some industrial tones to his techno equation
