ETHER003 is a four track release by Helsinki based DJ/Producer Kitkatone. The release includes two original tracks with two remixes by techno masters Woo York and Attemporal. Starting off the release, A1, 'Oppressor', is a slightly old school tune - raw and beautiful blend between House and Techno. The following 'Woo York Remix' turns the track to a ruthless techno beast with a hint of industrial vibe. B1, 'Remainder', presents a darker atmosphere with crude and fierce banging and mid-winter gloominess. The closing track 'Attemporal Remix' brings in a deep and spacey brooding, bonding the release into an extremely sterling techno pack. Hannu Ikola is a Finnish artist and owner of the Etherwerks label, releasing his third record on the imprint. "Chrysalis" is a four track opus of raw and swarthy techno. In the tracks Ikola's musical inspiration from experimental and ambient music can be heard. "Etherwerks" fifth release presents a new artist for the label, Rasmus Hedlund. Besides his unique techno sound Hedlund is also known by his acclaimed ambient and dub releases on his own Ljudverket label

This 5th release consists of three tracks made by the twin duo Manic Brothers, one edited by Peter B. They have during their relatively short career proven themselves as worthy keepers of the Swedish techno heritage with big releases on Drumcode a.o. What they bring to Bond on this release is their signature big room sound but with a much more simplified approach than previously heard. On the a-side there are two great tool tracks with lots of space for creative interpretation for a DJ. On the flip there are a long and epic track with a massive vocal breakdown. Groove based but yet with a big and strong hook. The label Bond is the brainchild of Swedish techno DJ and producer Petter B. The concept of the label is 'music by DJs for DJs'. The label focuses on releasing tracks that enable the DJ, rather than the producer, to be creative. It is based on that special bond which is created every time a DJ combines tracks, loops and sounds live into something new and unique

In the ever continuing stream of Soul Notes releases. Labelowner Kastil is pleased to announce the new 'Stale' outfit. Stale by Soul Notes will purvey jagged sounds throughout the more adventurous sides of Techno. With a most appropriate title for the first track (The Beginning) , Kastil takes one to faraway lands through noteworthy drum patterns and animated synth work. The sophomore bit (Paroxetin) is reminiscent of hardware hymns somewhat in a Den Haag fashion. Unilluminated acid sword fights meet tragic pads that float throughout. Sheol (B1) is Kastil's menacing take on profound techno. Quirky percussion sequenced form a cohesive alliance with the again ominous synth work that subtly hovers on top. Markov (B2) is an advanced synth journey that shows the basque-county Wizard's present capabilities and thrives on rich emotive tones that travel through one's ear channel with great spirit. Incessant Siege is the first in the line of many on the newly founded Stale by Soul Notes imprint. Madrid based artist "Irazu" has a couple of tricks up his sleeve

IP012: A new reference of the prestigious Spanish Techno label Injected Poison Records. After a year since from her last release on vinyl, during this time, we have been able to see some of her releases in digital format, but, it's vinyl time, we have generated enough waiting and now we can enjoy a powerful vinyl, with a magnificent work of art and design for collectors and four powerful tracks with 3 of the best producers of the Techno scene. IP005: Almost two years have gone by since the team at Injected Poison Records launched its previous vinyl record. Now, the label headed by the Spanish artist Jose Pouj brings us its fifth release. Available on vinyl and digital, this issue will be jam-packed with the best and most up-to-date techno, because they have enlisted the most outstanding Spanish producers: Oscar Mulero, Christian Wunsch, Exium and the label's boss himself: Jose Pouj, whom we also know as Hector Sandoval and Valentin Corujo. This track is slightly different from what we are accustomed to hear from these producers: a great and dynamic structure which is innovating, whilst retaining the characteristic sound of the duo
